MUHAMMED SHADIN A

Growth Manager Trainee | Product & Business Analyst
Malappuram, Kerala, India | +91 7593948066 | shadin2266@gmail.com | LinkedIn | GitHub

SUMMARY

Product-minded Growth Manager Trainee who started as a Business Analyst: writes the specifications engineering builds from, and owns the acquisition and conversion results that show whether it worked. Documented 12+ product modules (FSD, HFD, FRD) and ran UAT and defect triage across design, engineering and QA; now shapes product priorities from market and customer insights on a live service-website product. Built and shipped FinChat, a live 7-agent AI product, end to end. MBA in Financial Technology.

CORE SKILLS

Product: Roadmap prioritisation, translating business goals into build-ready requirements (FSD, HFD, FRD, BRD), user stories & acceptance criteria, UAT & defect triage, release coordination

Growth & Data: Funnel and metric definition, experiment design, user acquisition & conversion, SQL, Power BI, Tableau, Python (Pandas)

Delivery: Agile/Scrum ceremonies, backlog grooming, sprint planning, cross-functional facilitation, stakeholder management, process mapping, gap analysis

Technical Fluency: REST APIs, PostgreSQL/MySQL, AI-LLM systems (RAG pipelines, agent workflows, vector databases), Git/GitHub

EXPERIENCE

Hancod **Mar 2026 – Present**

Growth Manager Trainee *June 2026 – Present*

- Drive growth for a live service website, owning user acquisition and conversion.
- Shape product priorities using market and customer insights to guide roadmap decisions.
- Translate business goals into build-ready requirements for engineering and design.

Business Analyst Intern *Mar 2026 – May 2026*

- Authored FSDs, HFDs & FRDs for 12+ product modules, improving scope clarity and reducing rework.
- Led end-to-end application testing, from test scenarios and defect tracking to closure.
- Bridged UI/UX and engineering, translating designs into functional specifications and validating builds.
- Facilitated cross-functional requirement walkthroughs.

SELECTED PROJECTS

FinChat — Multi-Agent AI Intelligence & Productivity Platform

Solo product owner & builder | *Node.js, PostgreSQL, multi-provider LLM routing* | Live | GitHub

- Built and shipped a 7-agent platform that runs scheduled daily missions end to end.
- Raised scheduled-run success from 29% to 100% in 4.5 days (183 errors and budget overruns to 0) via budget, context and provider fixes.
- Cut the orchestrator agent's failure rate from 73% to 0% by adding a paid provider and fallback routing for when free-tier quotas ran out.
- Cut tokens per run by 37% after finding 86% went to re-reading the prompt, by scoping each agent's tools and capping chat history.
- Stopped failed runs being published as reports by checking each run's recorded outcome before delivery.
- Designed a bring-your-own-key model so AI cost scales per user, not per platform.

Crypto Wallet Risk Prediction System

Python, Scikit-learn | GitHub

- Built an imbalanced-classification study on a synthetic wallet dataset; showed a 78%-accuracy model that caught no high-risk wallets, and reported recall and ROC-AUC instead.

EDUCATION

MBA — Financial Technology | Pondicherry University (Central University) **2024 – 2026**

BCA | Punjab Technical University, Chandigarh Group of Colleges **2020 – 2023**

CERTIFICATIONS

- **IBM Data Science Professional Certificate** — ML pipelines, analysis and dashboards in Python and SQL.
- **RAG for Generative AI Applications Specialization** — IBM — retrieval-augmented systems with LangChain, FAISS, vector DBs.
- **Introduction to Model Context Protocol** — Anthropic — tool orchestration for multi-step AI workflows.

LEADERSHIP & ACTIVITIES

TEDx Pondicherry University 2025 — speaker liaison for G. Karthikeyan (Founder, Srishti Village); coordinated speaker, team and university admin.

BANQUEST 2024 — Student Coordinator, department flagship industry–academia programme.
